THE UNITED REPUBLIC OF TANZANIA

SPECIFIC CONDITIONS TO SUMBAWANGA MUNICIPAL COUNCIL FOR UPGRADING: AIRPORT-SENGA-WIPANGA (3KM); KIMATI-UFIPA (0.2KM); MUVA (0.2KM); KASEMA (0.4KM); MAENDELEO (0.2KM); MANDELA (0.3KM); MAWENI II (0.4KM); REGIONAL BLOCK-MSAKILA (1.2KM); SIDO-SENGA-MAFULALA (2.7KM); SOKOLO-BIBLE-MBEYA (2.6KM); ISOFU-HOSPITAL RING (2KM) AND KANONDO INDUSTRIAL RING (2KM) ROADS TO BITUMEN STANDARD, IN SUMBAWANGA MUNICIPALITY, RUKWA REGION

A. ENVIRONMENTAL MANAGEMENT PLAN IMPLEMENTATION

1. Ensure that, the mitigation measures are implemented accordingly as stated in the Environmental Management Plan (EMP);
2. Ensure that a proper environmental management organization pertinent with the type of project, at both project and site level is developed and made operational to guide the implementation of the Environmental Management and Monitoring Plans for the project;
3. Engage an Environmental Expert to guide implementation of the Environmental Management and Monitoring Plans;
4. Maintain, liaison with the key regulatory institutions and sectors in the course of implementation and operation of the project and prompt reporting of incidents as per law;
5. Ensure that, solid and liquid wastes are properly managed in course of the project implementation;
6. Ensure the compensation to the affected people is done fairly and prompt before project implementation;
7. Ensure project activities do not pollute rivers, streams and other water sources along the route;
8. Ensure dust, noise and vibrations are within the permissible standards;
9. Ensure construction materials are obtained from the authorized areas;
10. Ensure to have a restoration plan and commitment (after construction phase) to those areas that will be environmentally disturbed by the project implementation such as burrow pits and quarry sites;
11. Ensure that establishment of proper monitoring schedules for soil, water and air quality are made as indicated in the Environmental Monitoring Plan; and
12. Ensure that the Government through its Mandated Institutions gets access to monitoring data, monitoring network facilities and are facilitated to verify any monitoring information.

These specific conditions and the general conditions which are printed at the back of the EIA certificate form the basis for the project approval and future monitoring and evaluation of its performance.

B. SAFETY MATTERS

1. Ensure that, Health and Safety Management Plan is approved by relevant authorities and made readily available for inspection. Among other things, a record of baseline health status for each employee should be kept and regular occupational medical check-up made against that;
2. Ensure that, proper and approved Personal Protective Equipment (PPE) are provided to workers and are used as required by relevant policies, regulations and guidelines;
3. Ensure that safety precautions, firefighting facilities are in place and an Emergency Preparedness and Response Plan is prepared, implemented and updated annually;
4. Ensure that hazardous wastes such as scrap metals, oil contaminated wastes and soil containing bitumen are managed properly; and
5. Ensure that, Health and Safety management Plan is approved by relevant authorities and made available for inspection among other things, a record of baseline health status for each employee during construction phase should be kept and regular Occupational medical check-up made against and that should also observe the requirements of the Occupational Health and Safety Act, 2003.

C. DESIGN OF THE CRITICAL FACILITIES TO COMPLY WITH BOTH NATIONAL AND INTERNATIONAL STANDARDS

1. Ensure that proper drainage around the project are well designed to protect the environment and should not be directed to the settlements or farms;
2. All facilities whose design is by law subject to approval by a regulatory authority should be approved by such authority and the approved designs submitted to the Council for records and future reference;
3. Any changes or improvement in the design of the road and other critical components, made at any project stage should be done in consultation with and, after approval by respective authorities;

D. CORPORATE SOCIAL RESPONSIBILITY

1. All commitments aiming at demonstrating the Company's observance of the Corporate Social Responsibility (CSR) principles should for key items be in form of Memorandum of Understanding (MoU) with relevant communities and all MoUs should be witnessed by relevant Local Government Authorities (LGAs);
2. Ensure that communities around the project area and general public are aware of the dangers they can be exposed to by the project activities; in its regard, a communication and awareness raising strategy to the local community and the general public should be put in place and implemented throughout the lifetime of the project;
3. Monitoring of the environmental quality should be extended to the nearby community areas and the project buffer zone, focusing on water quality, air quality

These specific conditions and the general conditions which are printed at the back of the EIA certificate form the basis for the project approval and future monitoring and evaluation of its performance.

and soil quality; monitoring results should among others, be periodically communicated to the Project Affected Persons (PAPs).

E. OTHER LEGAL REQUIREMENTS

1. Ensure that, legal requirements by other authorities to which the operations of this project have relevance are complied with. These include among others, any other authority mandated to oversee the operations of the project;
2. Ensure to observe the requirements of the Occupational Health and Safety Act, 2003;
3. Ensure all hazardous wastes generated from the project are managed in accordance to the Environmental Management (Hazardous Waste Control and Management) Regulations, 2021; and
4. Ensure to pay relevant legal fees/subscriptions to the Council in accordance with the Environmental Management (Fees and Charges) Regulations, 2021.

These specific conditions and the general conditions which are printed at the back of the EIA certificate form the basis for the project approval and future monitoring and evaluation of its performance.
